

RENDERING SERVICE

Checklist

Floor plan and elevation plans with measurements, indicating ceiling height, window heights and size and any other measurements that you would like represented in your render.

A plan for placement of furniture and accessories.

A list of products, including paint colours, tiles and flooring. This will provide me with measurements and help me source 3D models to represent your render.

Images always help! If you have any photographs, it will assist me in interpreting the space more accurately.
